

WAVE PUSH-TO-TALK

Combine the broad coverage of a nationwide cellular network with the ease of two-way radio communications.

TAKE PUSH-TO-TALK FURTHER WITH WAVE PTX

Push-To-Talk (PTT) is no longer only for two-way radios. WAVE PTX is the carrier-independent broadband PTT service that instantly connects your team at the push of a button. WAVE PTX eliminates the barriers between radio users and those on smartphones, tablets, and broadband devices — allowing everyone to be part of the conversation.

Instant PTT Communication

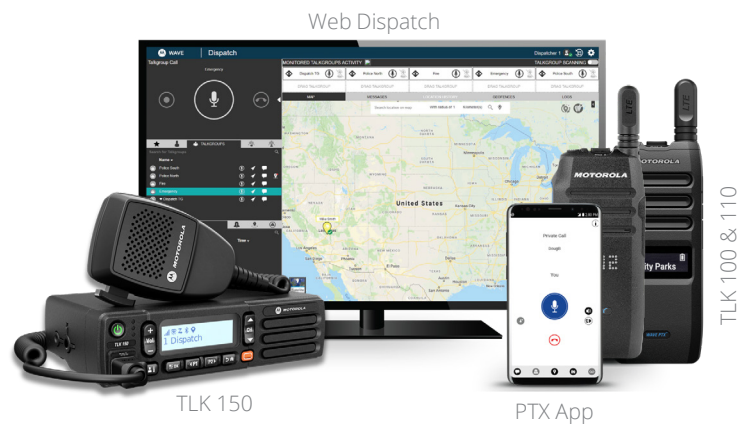

Get the speed & simplicity of Push-to-Talk communication with the ability to share details via text, photo, video, or file attachment.

Nationwide* Service

WAVE is easy to set up and allows you to communicate across any number of networks, devices, apps, cities, and facilities.

Predictable Costs

Manage your cash flow with affordable subscriptions, no capital expenses, and no long-term commitments.

UNIFIED COMMUNICATION. DIFFERENT DEVICES.

WAVE PTT Mobile App

Instantly and affordably connect your team across all the devices they already own, like smartphones & tablets.

Broadband PTT Devices

Enjoy the benefits of WAVE on a rugged two-way radio: the TLK 100, TLK 110, or the TLK 150 mobile radio.

WAVE PTT Web Dispatch

Login from any standard web browser and access all the communication tools you need. No software to install or maintain.
